The Vital Support Site is your primary source of information related to Vital Statistics, including procedure manuals, one-page tip sheets, helpful easy step guides, contact directories and important announcements affecting IPHIS-EDRS users.

Reference the secure Support Site by clicking on after signing into the secure Citrix gateway at https://vital.odh.ohio.gov. You can also visit the public side of the Support Site at http://vitalsupport.odh.ohio.gov

The navigation menu allows users to narrow content to only those documents that apply to birth facilities.

Can’t find it? Have a suggestion? Click on “Site Feedback” at the bottom to email ODH/VS!
